Product safety

At Top That! the issue of safety is taken very seriously. It is our aim to be proactive by liaising with government bodies and trading standards, and we have excellent relationships with UK testing houses. We also have a dedicated full-time safety coordinator, who undertakes and documents full risk assessments on all components included with our titles. After evaluation, and where appropriate, the components will be tested to the EN71 and GPS standards. We have an ethical sourcing policy.

Production ethics

Top That! is committed to being a responsible trading partner with its suppliers, ensuring that all books and gift products are produced in a manner that adheres to internationally recognised labour principles and laws.

We are constantly monitoring the development of new production processes that have an improved performance regarding their impact on the environment, and seek to include these advances in our products. Our paper does not come from pulp sourced from illegal loggers and, where appropriate, we use recycled paper or FSC approved paper subject to client requirements.

Let us find the perfect solution for you!

Whether you are looking to add more product to extend your brand or just searching for a special promotional package, give us a call, and we will be happy to discuss your needs.
